

Computer Science 3
Alternative Assessment 2
Quarterly Project Wireframe Milestone (20 pts)

Instructions:

Create wireframes to be used as a visual prototype for your quarterly project. Information regarding quarterly project can be found here: <https://kiboot.github.io/cs3-q1qp.pdf>

Save your work as **q1aa2_two-letter-section_FirstLettersOfFirstnameSurname**.

Example: *Q1AA2_Ba_klcardoza*

The project should be uploaded as a GitHub repository with the same name as the project.

All sections can be in a single page as long as each section takes up the whole screen(or page).

If you are going for a single page with multiple sections, create wireframes for each section as if they are different pages

Guide regarding GitHub can be found here: <https://kiboot.github.io/github.pdf>

Rubrics:

Criteria	+5	+4	+3	+1
Technical Execution	<ul style="list-style-type: none"> Wireframe is clean, neat and very well organized. It clearly shows the structure of your plan for the website design. Conceptualized visuals are articulated clearly. Font choices in each part of the site are indicated Color scheme is elaborated and usage in site indicated 	<ul style="list-style-type: none"> Wireframe is clean, neat and organized. It shows a good sense of the structure of your plan for the website design. Most conceptualized visuals are articulated clearly. Font choices are present, but its usage is not indicated Color scheme is elaborated but its usage is not indicated 	<ul style="list-style-type: none"> Wireframe is somewhat neat and fairly well organized. It shows some structure of your plan for the website design. Conceptualized visuals are articulated moderately well. Font choices are not present Color scheme is present, but there are no elaboration or usage indication 	<ul style="list-style-type: none"> Wireframe is cluttered and unorganized. It does not show the structure of your plan for the website design. Conceptualized visuals are poorly clearly. Font choices and color scheme are not present.
Concept	<ul style="list-style-type: none"> Site concept is carried over very well into conceptualized visuals. The design project is planned carefully; understanding of all concepts and instructions is clearly demonstrated. 	<ul style="list-style-type: none"> Site concept is carried over well into conceptualized visuals. The design project is planned carefully; understanding of all concepts and instructions is clearly demonstrated. 	<ul style="list-style-type: none"> Site concept is carried over moderately well into conceptualized visuals. The design project is planned somewhat carefully; understanding of all concepts and instructions is fairly well demonstrated. 	<ul style="list-style-type: none"> Site concept is not carried over into conceptualized visuals. The design project is not planned carefully; understanding of all concepts and instructions is poorly demonstrated.
Quality	<ul style="list-style-type: none"> Design concepts and layout show excellent creativity, originality, and a strike a perfect balance between text and images. 	<ul style="list-style-type: none"> Design concepts and layout show good creativity, originality, and a strike a good balance between text and images. 	<ul style="list-style-type: none"> Design concepts and layout show some creativity, originality, and shows some balance between text and images.. 	<ul style="list-style-type: none"> Design concepts and layout do not show creativity or originality, and a strike a poor balance between text and images.
Timeliness	<ul style="list-style-type: none"> The assessment is submitted twenty-four (24) hours before or earlier of the declared deadline. 	<ul style="list-style-type: none"> The project is submitted within sixty (60) minutes or earlier of the declared deadline 	<ul style="list-style-type: none"> The project is submitted within twenty-four (24) hours or earlier of the declared deadline 	<ul style="list-style-type: none"> The project is submitted within forty-eight (48) hours or earlier of the declared deadline.
